REQUIRED PERMITS NOTED IN THE
REVISED ORDINANCES OF THE CITY OF NEWARK

N. J. DOCUMENTS
NEWARK LIBRARY

Attached hereto is a compilation of required permits and registrations as noted in the Revised Ordinances of the City of Newark. This listing has been prepared to help those individuals who seek a permit or permits for anyone of a number of alterations, installations, construction or related activities.

This listing is not meant to be an all inclusive listing of the responsibilities of an applicant and is meant only as an aid. It is accurate as of November 1, 1977. Individuals referring to this listing should do so in conjunction with the "Revised Ordinances of the City of Newark."

It is emphasized that all laws, rules, regulations and ordinances must be complied with and that obtaining permits, as noted in the Revised Ordinances of the City of Newark, does not preclude one's responsibilities in complying with all laws, rules, regulations and ordinances of the federal state and local governments.

This listing of permits does not include a listing of required licenses (i.e. marriage, alcoholic beverages, amusements, business, catering, vendor, boarding home, theaters).

SECTION

9A:3-1

DESCRIPTION

PERMITS AND REGISTRATIONS REQUIRED: EMERGENCIES

(a) Before any electrical work covered by this code may be installed, altered, or repaired, a permit shall be secured from the electrical bureau. When the electrical bureau is not open, emergency repair work may be started without a permit, provided the application for the permit is filed as soon as is practicable on the next day on which the electrical bureau is open.

(1) REGULAR PERMITS. Regular permits will be issued only to licensed electrical contractors complying with the requirements of the Electrical Contractors Licensing Act of 1962, section 45:5A-1 et seq., of the Revised Statutes of the state of New Jersey.

(2) RESTRICTED PERMITS; REGISTRATION. Electrical work exempted by section 45:5A-18 (m) of the Revised Statutes of the state of New Jersey, but not exempted by Newark ordinance, such as maintaining and installing elevators, escalators, oil burners, and gas pumps, may be done on a regular permit by a licensed electrical contractor, or may be done on a restricted permit with each restricted permit limited to one class of work. Such restricted permits will be issued to persons, firms or corporations who have in their employ a licensed journeyman electrician. Registration in the name of the persons, firms or corporations shall be on an annual basis from January 1 through December 31. Application for each restricted permit shall be accompanied by an annual registration fee of \$50.00.

(3) ANNUAL REPAIR AND MAINTENANCE PERMITS. Repair or work in or on premises occupied by a firm or corporation may be performed on behalf of such firm or corporation on an annual permit basis either by a licensed electrical contractor, or by a corporation itself if the corporation has in its employ a licensed journeyman electrician who is a regular full time employee. The annual permit will be issued in the name of the firm or corporation or the electrical contractor from January 1 through December 31. Said firm or corporation or electrical contractor shall be responsible for filing with the electrical bureau, on a quarterly basis, a complete report on all work done under such permit. The annual fee for repair or maintenance work done under an annual permit shall be \$150.00. This amount shall cover the inspection fees for work done under any one permit. (4-17-68, § 6(1).)

No person shall trim, cut, or prune any tree in or on a public street without written permission of the bureau of parks and grounds. If the chief of the bureau shall determine that the proposed trimming, cutting, or pruning is necessary, and the proposed method and workmanship thereof is approved, the bureau of parks and grounds shall issue a written permit for such work to be performed and all work done under such permit shall be performed in strict accordance with any terms contained in the permit. (R.O. 1951, §28.2)

18:1-4

PERMIT TO PLANT REQUIRED

No person shall cut, break, climb, or injure any tree or plant growing or planted in any public street or city park, or cause, authorize or procure any person to cut, break, climb, or injure any such tree or plant without written permission of the bureau of parks and grounds. (R.O. 1951, §28.1)

18:1-5

PERMIT TO REMOVE OR DESTROY TREES OR PLANTS REQUIRED

(a) No person shall remove, kill, or destroy or cause, authorize, or procure any person to remove, kill, or destroy any tree planted or growing in any public street or any tree or plant planted or growing in any city park except as otherwise provided in paragraph "(b)" of this section.

(b) Any person desiring to remove any tree in a public street may apply to the bureau of parks and grounds. If the chief of the bureau shall determine that the proposed removal is necessary, the said bureau shall issue a written permit for such work to be performed and all work done under such permit shall be performed in strict accordance with any terms contained in the permit. (R.O. 1951, §28.4)

SECTION

DESCRIPTION

19:3-2.

PERMITS

Whenever a plan of plumbing is approved and placed on file in the office of the division of inspections, a permit shall be issued by the division of inspections for the installation of such plumbing work as shown on such plan. Such permit shall be attached to the building or premises by the licensed master plumber where plumbing is to be installed. The permit shall be exposed to a public view during the course of construction.

(R. O. 1951, §22.16)

19:3-7.

PERMIT TO CONNECT HOUSE TO SEWER, SEPTIC TANK OR CESSPOOL; PERMIT TO BE DISPLAYED

(a) No building, or premises shall be connected with any sewer, septic tank or cesspool, nor shall any house sewer be installed, altered or relaid from the curb to the house line, without a permit first being obtained from the division of inspections.

(b) The permit shall be attached to the premises during the progress of the work to which it relates and it shall be exposed to public view.

(R. O. 1951, §22.19)

CROSS REFERENCE.

For permit to be obtained from bureau of sewers to connect with sewer or drain, see section 21:2-5 of these Revised Ordinances.

19:3-100

GAS PIPING WORK; PERMIT; FEES

Before any new installation, alteration, or repair to the existing system of gas piping is made, an application must be made out and a permit obtained as provided for in section 19:3-1 and 19:3-2 of this Plumbing Code.

19:3-100

When such application is made jointly with an application for a plumbing permit for the same building and by the same person, no fee other than those required for plumbing will be required. If the application for a permit for a gas installation is made separately, a fee of \$2.00 shall be required. If the test does not meet the requirements of sections 19:3-101 to 19:3-106 of this Plumbing Code, a re-test shall be made and a fee of \$3.00 shall be paid therefor.

INDUSTRIAL WASTE: EXISTING AND FUTURE CONNECTIONS; PERMITS

Each existing industrial user which is presently connected directly or indirectly to municipal wastewater facilities shall make application to PVSC for a discharge permit no later than October 1, 1977, whether the connection be for industrial waste or storm water. Existing industrial users that have applied for permits may continue their discharge while PVSC processes their application, except for any discharges which constitute prohibited waste as otherwise provided in the ordinance or unless notified by PVSC to cease and desist their discharge. Any person proposing to make a new industrial connection shall submit an application for a discharge permit, together with the signed, written approval of the owner of the property whereon the connection shall be made, to the City for its approval. Upon the City's review and approval, the application shall be forwarded to PVSC for classification and possible issuance of a discharge permit. No Certificate of Occupancy shall be granted by the City for a use requiring a discharge permit, as herein described, without the prior award of such permit by PVSC.

21:3A-4

EXISTING INDUSTRIAL USERS: CHANGE OF DISCHARGE

Any existing industrial user which purposes to make any change in its facility or processing that may significantly affect the quality or the quantity of its discharge into the sewerage system, shall submit to the City an Industrial Sewer Waste Revision Application describing the contemplated changes. In addition, any new tenant or occupant of an existing industrial user shall submit an Industrial Sewer Waste Revision Application to the City. Any industrial

Sewer Waste Revision Application for which the City has granted written approval shall be forwarded to PVSC for its action, including the possible issuance of an industrial permit. No Certificate of Occupancy shall be issued for an industrial use until an industrial permit has been issued by the PVSC, and no person shall occupy any building or structure for the purpose of a new industrial permit has been issued by the PVSC.
